Motion to Approve Zoning Map Amendment F-1594 and
Statement of Consistency with Comprehensive Plan

I move that Zoning Map Amendment F-1594, including site plan and special use district, be **approved** on the basis of the following:

The proposed special use zoning map amendment, as petitioned by Piedmont Natural Gas Company, Inc., to rezone a 2.18-acre piece of property from LB-S to LO-S (Limited Office-Special Use, with allowed uses as set forth in the Ordinance) is consistent with the recommendations of the Legacy Comprehensive Plan and reasonable or in the public interest because

1. The subject property is an undeveloped tract on the north side of Robinhood Road, east of Meadowlark Drive, and the subject property is adjacent to single family homes to the east and south, a volunteer fire station to the west, and a drug store, shopping center, and vacant land zoned MU-S to the north;
2. The proposed LO-S zoning is intended to accommodate moderately intense medical, professional, administrative, and government office uses on small to mid-sized sites in a suburban setting, is typically located near the intersection of a collector street or thoroughfare, and is designed to be a transition between residential and commercial districts;
3. The proposed uses include a mixture of residential, office, and institutional uses, the proposed uses will have minimal impact on traffic, and the site plan features utility infrastructure necessary for a future natural gas pipeline, which would meet a public need;
4. The subject property is located in an activity center and will have access to public water and sewer; and
5. The subject property is located along a major thoroughfare in GMA 3, and would serve as a transition between residential and commercial districts, which is suitable for LO-S zoning, and the proposal is consistent with the West Suburban Area Plan Update.

COUNTY ORDINANCE - SPECIAL USE

Zoning Petition of Piedmont Natural Gas Company, Inc., Docket F-1594

AN ORDINANCE AMENDING
THE FORSYTH COUNTY
ZONING ORDINANCE AND THE
OFFICIAL ZONING MAP OF
THE COUNTY OF FORSYTH,
NORTH CAROLINA

BE IT ORDAINED by the Board of County Commissioners of the County of Forsyth as follows:

Section 1. The Zoning Ordinance of the *Unified Development Ordinances* of the County of Forsyth, North Carolina, and the Official Zoning Map of the County of Forsyth, North Carolina, are hereby amended by changing from LB-S to LO-S (Utilities; Residential Building, Single Family; Residential Building, Duplex; Combined Use; Banking and Financial Services; Bed and Breakfast; Offices; Recreation Facility, Public; Adult Daycare Center; Child Care, Sick Children; Child Daycare Center; Church or Religious Institution, Neighborhood; Government Offices, Neighborhood Organization, or Post Office; and Museum or Art Gallery) the zoning classification of the following described property:

PINs 5896-65-5565, 5896-65-7556, and 5896-65-7669

Section 2. This Ordinance is adopted after approval of the site plan entitled Robinhood Road Regulator Station, and identified as Attachment A of the Special Use District Permit issued by the Forsyth County Board of Commissioners the _____ day of _____, 20____ to Piedmont Natural Gas Company, Inc.

Section 3. The Board of Commissioners hereby directs the issuance of a Special Use District Permit pursuant to the Zoning Ordinance of the *Unified Development Ordinances* for a development to be known as Robinhood Road Regulator Station. Said Special Use District Permit and site plan with associated documents are attached hereto and incorporated herein.

Section 4. This Ordinance shall be effective from and after its adoption.

COUNTY, SPECIAL USE DISTRICT PERMIT

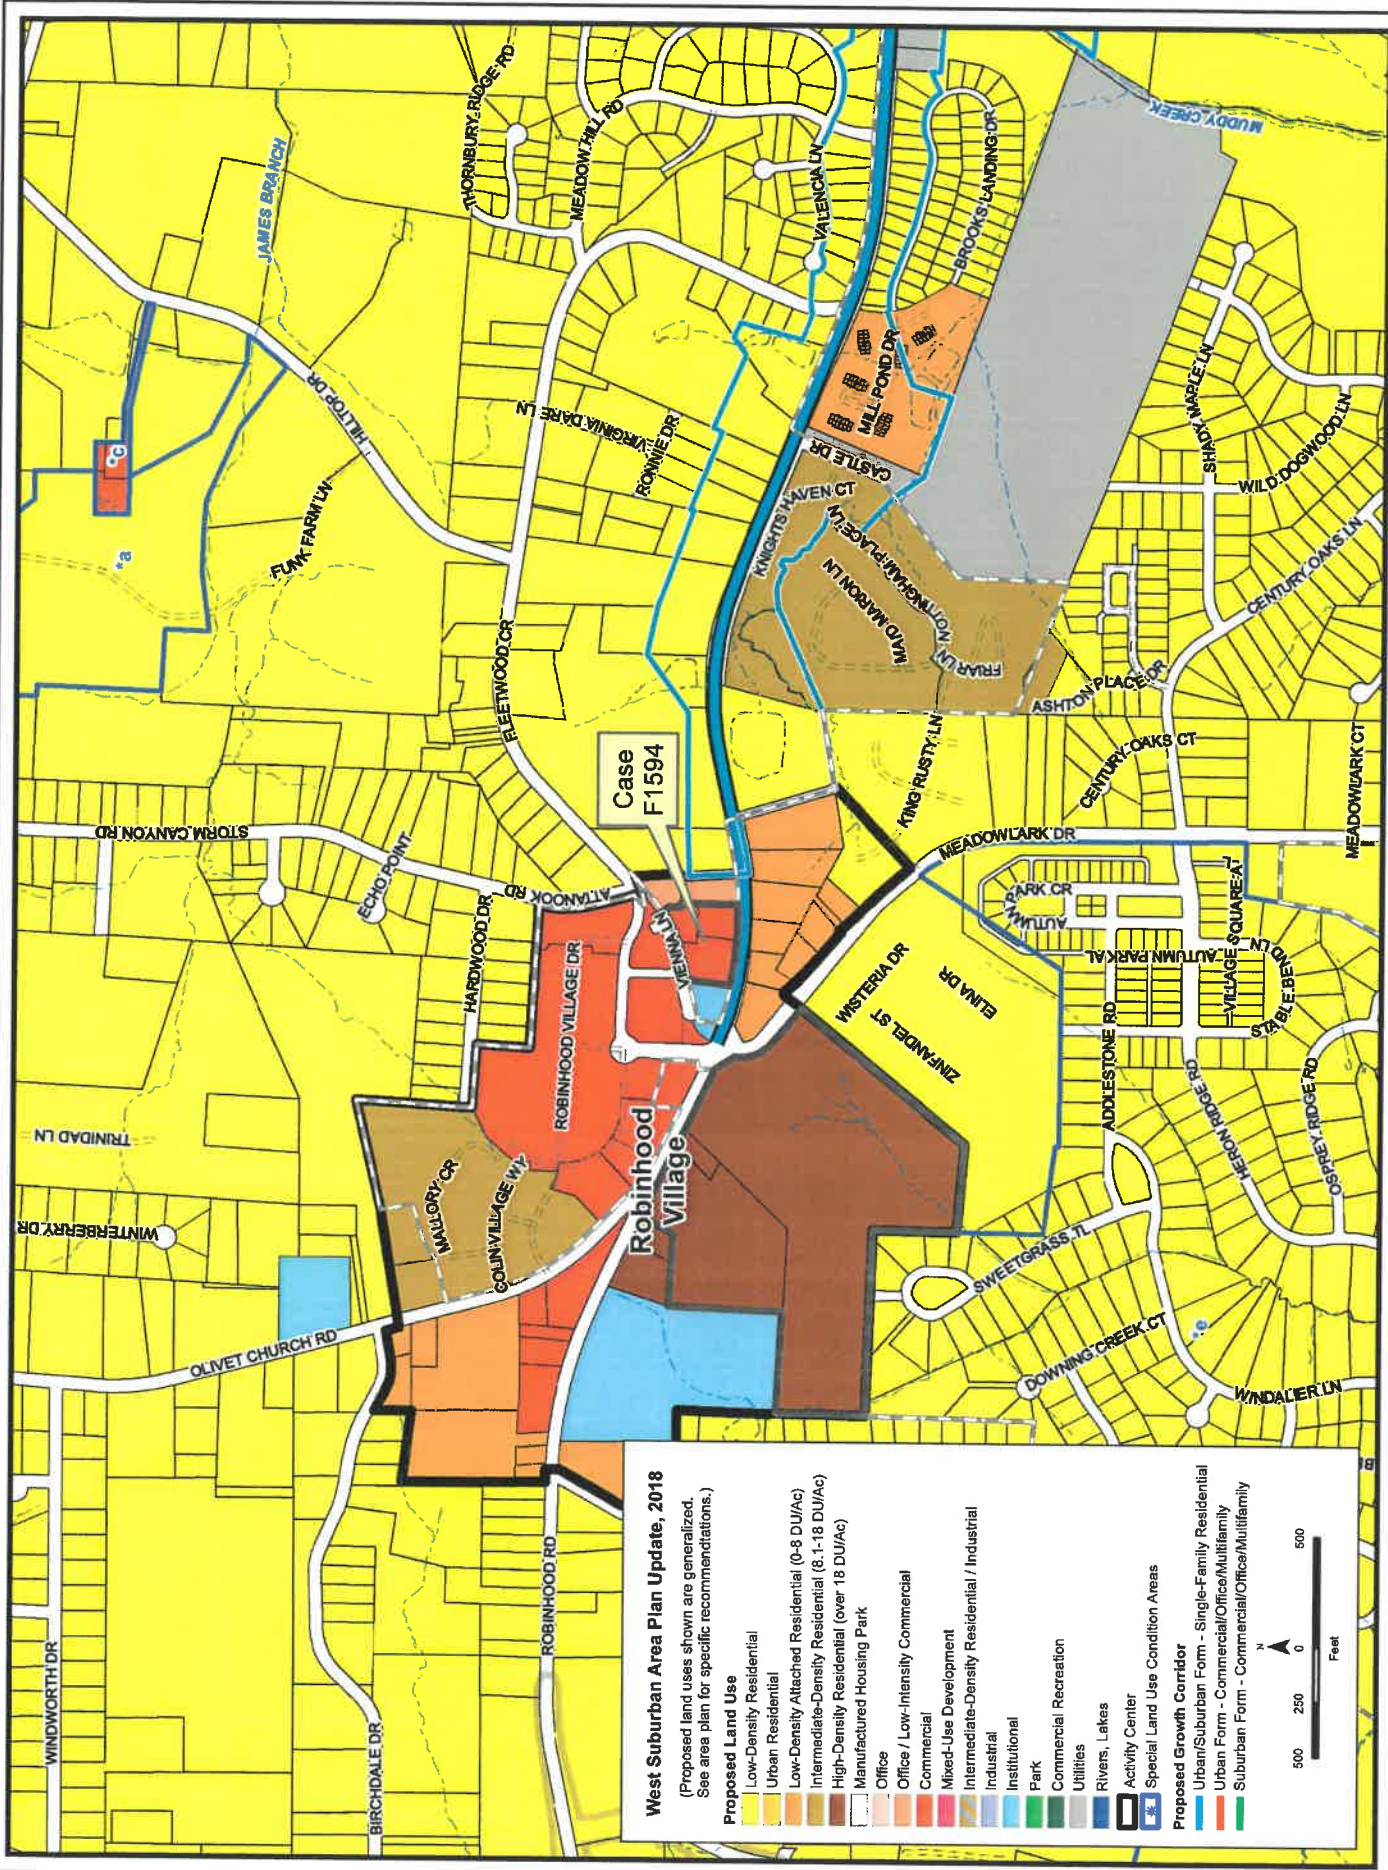

SPECIAL USE DISTRICT PERMIT

Issued by the Forsyth County
Board of Commissioners

The Forsyth County Board of Commissioners issues a Special Use District Permit for the site shown on the site plan map included in this zoning petition of Piedmont Natural Gas Company, Inc. (Zoning Docket F-1594). The site shall be developed in accordance with the plan approved by the Board and bearing the inscription: "Attachment A, Special Use District Permit for LO-S (Utilities; Residential Building, Single Family; Residential Building, Duplex; Combined Use; Banking and Financial Services; Bed and Breakfast; Offices; Recreation Facility, Public; Adult Daycare Center; Child Care, Sick Children; Child Daycare Center; Church or Religious Institution, Neighborhood; Government Offices, Neighborhood Organization, or Post Office; and Museum or Art Gallery), approved by the Forsyth County Board of Commissioners the ____ day of _____, 20 ____" and signed, provided the property is developed in accordance with requirements of the LO-S zoning district of the Zoning Ordinance of the *Unified Development Ordinances* of the County Code, the Erosion Control Ordinance, and other applicable laws, and the following conditions be met:

- **PRIOR TO THE ISSUANCE OF ANY PERMITS:**
 - a. Developer shall obtain all necessary permits from the North Carolina Department of Environmental Quality (NCDEQ) and the Division of Energy, Mineral, and Land Resources (DEMLR).
 - b. Developer shall dedicate fifty-five (55) feet of right-of-way from the centerline of Robinhood Road to NCDOT and record a negative access easement along the property frontage.

- **PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS:**
 - a. Developer shall install curb, gutter, and sidewalk along Robinhood Road.

RE: Neighborhood outreach summary on rezoning of land located at 5147 Robinhood Road, 5512 Vienna Lane, and 5151 Robinhood Road and having Forsyth County Parcel Identification Numbers 5896-65-7556, 5896-65-7669, and 5896-65-5565 (collectively, the "Property")
Our File: 011836.00055

Dear Mr. Roberts:

We represent Piedmont Natural Gas Company, Inc. ("Piedmont") and are writing to provide a summary of the neighborhood outreach regarding the rezoning of the Property.

On February 20, 2020, Piedmont Natural Gas sent 45 letters by first-class mail to property owners in the general area surrounding the proposed site informing them of the proposed rezoning and asking them to attend a neighborhood meeting on Monday, March 9, 2020 at Robinhood Road Baptist Church, 5422 Robinhood Road, Winston-Salem, NC 27106. The proposed site is located outside of the city limits, however, we reached out to Winston-Salem Councilmen Jeff MacIntosh and Robert Clark regarding the rezoning because their wards are adjacent to the proposed site. Councilmen MacIntosh and Clark asked questions about the site and provided their feedback regarding neighborhood outreach. They both supported the neighborhood meeting. Four neighbors attended the meeting and had several questions as it related to timing of construction, capacity of the pipeline, how deep the pipeline will be, and how much traffic will this site produce. A sign in sheet from the neighborhood meeting is attached.

If you have questions concerning the summary, please do not hesitate to call me at 919-838-2012 or correspond with me at my email address shown above.

Very truly yours,

Cerretta G. Amos

PETITION INFORMATION	
Docket	F-1594
Staff	Gary Roberts, Jr., AICP
Petitioner(s)	Piedmont Natural Gas Company, Inc.
Owner(s)	Same
Subject Property	PINs 5896-65-5565, 5896-65-7556, and 5896-65-7669
Address	5147 and 5151 Robinhood Road and 5512 Vienna Lane
Type of Request	Special Use rezoning from LB-S to LO-S
Proposal	<p>The petitioner is requesting to amend the Official Zoning Map for the subject property from LB-S (Limited Business – Special Use – Retail Store) to LO-S (Limited Office – Special Use). The petitioner is requesting the following uses:</p> <ul style="list-style-type: none"> • Utilities; Residential Building, Single Family; Residential Building, Duplex; Combined Use; Banking and Financial Services; Bed and Breakfast; Offices; Recreation Facility, Public; Adult Daycare Center; Child Care, Sick Children; Child Daycare Center; Church or Religious Institution, Neighborhood; Government Offices, Neighborhood Organization, or Post Office; and Museum or Art Gallery
Neighborhood Contact/Meeting	A summary of the petitioner’s neighborhood outreach is attached.
Zoning District Purpose Statement	The LO District is primarily intended to accommodate moderately intense medical, professional, administrative, and government office uses on small to mid-sized sites, in a suburban setting. The district is typically located near the intersection of a collector street or thoroughfare in areas which are otherwise developed with residences. Standards are designed so this district may serve as a transition between residential districts and commercial districts. This district is intended for application in GMAs 2 and 3.
Rezoning Consideration from Section 3.2.15 A 13	<p>Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?</p> <p>Yes. The site is located along a major thoroughfare within GMA 3 (Suburban Neighborhoods). The site also serves as a transitional area between residential and commercial districts.</p>
GENERAL SITE INFORMATION	
Location	North side of Robinhood Road, east of Meadowlark Drive
Jurisdiction	Forsyth County
Site Acreage	± 2.18 acres
Current Land Use	The site is currently undeveloped.

Surrounding Property Zoning and Use	Direction	Zoning District	Use			
	North	MU-S	Walgreens and undeveloped property			
	East	RS9	Single-family homes			
	South	RS9	Single-family homes			
	West	RS9	Vienna Volunteer Fire Department			
Rezoning Consideration from Section 3.2.15 A 13	Is/are the use(s) permitted under the proposed classification/request compatible with uses permitted on other properties in the vicinity?					
	The proposed residential, office and institutional uses are compatible with the uses permitted on the adjacent MU-S zoned property and somewhat less compatible with the low-density residential uses permitted on the adjacent RS9 properties.					
Physical Characteristics	The site is grassed and has a gentle slope downward toward the southeast.					
Proximity to Water and Sewer	There are public water and sewer lines beneath Vienna Lane. Public water service also exists beneath Robinhood Road.					
Stormwater/ Drainage	No known issues.					
Watershed and Overlay Districts	The site is not located within a water supply watershed.					
Analysis of General Site Information	The site has been cleared, has access to public water and sewer service, and fronts on two public streets. The site is suitable for the proposed improvements.

Proposed Access Point(s)	The site will be accessed from Vienna Lane.					
Planned Road Improvements	The proposed site plan includes dedication of additional right-of-way and construction of curb, gutter, and sidewalk along Robinhood Road.					

Trip Generation - Existing/Proposed	<p><u>Existing Zoning: LB-S</u> 11,578 sf / 1,000 x 53.13 (free-standing discount store trip rate) = 615 trips per day</p> <p><u>Proposed Zoning: LO-S</u> Staff is unable to generate specific trip generation for the Utilities use. However, low trip generation would be expected, considering the nature of this use and the fact that the site will not be staffed.</p>	
Sidewalks	Sidewalk will be required along Robinhood Road.	
Transit	Transit is not available in the vicinity.	
Analysis of Site Access and Transportation Information	The site fronts on two public streets, one of which is a major thoroughfare. Access is proposed from Vienna Lane; no access is proposed from Robinhood Road. Staff does not foresee any transportation-related issues associated with this request.	
SITE PLAN COMPLIANCE WITH UDO REQUIREMENTS		
Parking	Required	Proposed

Complies with Section 3.2.11	(A) Legacy 2030 policies:	Yes
	(B) Environmental Ord.	N/A
	(C) Subdivision Regulations	N/A
Analysis of Site Plan Compliance with UDO Requirements	The proposed site plan accommodates a future 50-foot natural gas pipeline easement that will traverse the site. The pipeline will be underground; however, there will be two compound areas screened by a masonry wall having a minimum height of eight feet. Adjacent to RS9 zoning, alternative landscaping is proposed, consisting of a variety of trees and shrubs in some areas, as plantings are not allowed within the utility easement. Potential development on the southeastern portion of the site would require a Site Plan Amendment.	
CONFORMITY TO PLANS AND PLANNING ISSUES		
Legacy 2030 Growth Management Area	Growth Management Area 3 – Suburban Neighborhoods	
Relevant Legacy 2030 Recommendations	<ul style="list-style-type: none"> Promote a pedestrian-friendly orientation for new development and redevelopment and reduce the visual dominance of parking areas. Discourage inappropriate commercial encroachment into neighborhoods. Promote both horizontal and vertical mixed-use within designated activity centers. 	

Relevant Area Plan(s)	<i>West Suburban Area Plan Update (2018)</i>
Area Plan Recommendations	<ul style="list-style-type: none"> The plan recommends commercial use for the subject property (see specific activity center comments below).
Site Located Along Growth Corridor?	The site is located along the Robinhood Road Growth Corridor.
Site Located within Activity Center?	The site is located within the Robinhood Village Activity Center, which contains approximately 125 acres and is located at the intersection of Robinhood Road, Meadowlark Drive, and Olivet Church Road. Commercial uses are recommended immediately to the east of the volunteer fire department, transitioning to low-intensity office and commercial uses at the eastern edge of the activity center. Land uses should be linked to each other and adjoining properties through vehicular and pedestrian connections.
Rezoning Consideration from Section 3.2.15 A 13	Have changing conditions substantially affected the area in the petition?
	No
	Is the requested action in conformance with <i>Legacy 2030</i>?
	See comments below.
Analysis of Conformity to Plans and Planning Issues	<p>The site is located within an activity center that encourages a pedestrian-oriented mix of uses. The subject property was rezoned in 2010 to accommodate a retail store. That proposal did not materialize, and the site remains undeveloped.</p> <p>While the current request includes a mixture of residential, office and institutional uses, the catalyst for the request (as shown on the proposed site plan) is utility infrastructure associated with a future natural gas pipeline. Because the Utilities use does not contribute to pedestrian activity, it is not typically encouraged within an activity center. However, the site has remained undeveloped for nearly 10 years, and the request would meet a public need. It should also be noted that the southeastern portion of the site could be developed through the Site Plan Amendment process. The request would generate relatively little traffic, and access would be provided internally from Vienna Lane.</p>

CONCLUSIONS TO ASSIST WITH RECOMMENDATION	
Positive Aspects of Proposal	Negative Aspects of Proposal
The request would meet a public need by providing utility infrastructure.	Because the Utilities use does not contribute to pedestrian activity, it is not typically encouraged for within activity centers.
The site will not be accessed from Robinhood Road.	
The request should have minimal impact on traffic.	
The proposed list of uses and the proposed site plan permit the option of future development on the southeastern portion of the site.	
SITE-SPECIFIC RECOMMENDED CONDITIONS OF APPROVAL	
<p>The following conditions are proposed from interdepartmental review comments to meet established standards or to reduce negative off-site impacts:</p> <ul style="list-style-type: none"> • PRIOR TO THE ISSUANCE OF ANY PERMITS: <ul style="list-style-type: none"> a. Developer shall obtain all necessary permits from the North Carolina Department of Environmental Quality (NCDEQ) and the Division of Energy, Mineral, and Land Resources (DEMLR). b. Developer shall dedicate fifty-five (55) feet of right-of-way from the centerline of Robinhood Road to NCDOT and record a negative access easement along the property frontage. • PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS: <ul style="list-style-type: none"> a. Developer shall install curb, gutter, and sidewalk along Robinhood Road. 	

STAFF RECOMMENDATION: Approval

**CITY-COUNTY PLANNING BOARD
PUBLIC HEARING
MINUTES FOR F-1594
MAY 28, 2020**

Desmond Corley presented the staff report.

George Bryan asked whether, in expanding this gas facility, there would be any potential danger to the surrounding residential community.

In response to George's question, Cerretta Amos (attorney for Piedmont Natural Gas) stated that this utility poses no risk to the community. There is a similar utility station a mile down the road. There are also no noise or sound issues.

George asked if there are separation requirements where these facilities must be located away from residential development.

Pinkney Bynum (Piedmont Natural Gas) responded that the facility is designed to change transmission pressure to a lower pressure; there are regulators involved that change from a higher pressure to a lower pressure. All of that is above ground. If there is a sudden change in pressure, there might be a brief expelling of the excess gas vented to the atmosphere, but that is an abnormal operating condition. That is how it is designed to ensure safety. We are not aware of any incidents at the other facility on Robinhood Road that serves the same function, or of any other facilities of this type in Winston-Salem.

Johnny Sigers stated that he has put in these type of facilities before, and there are normally no issues.

Jack Steelman asked how Piedmont Natural Gas would compare the exterior appearance of this facility to the other facility on Robinhood Road.

Mr. Bynum stated that the Robinhood facility was shielded by woods from the road and only enclosed by a chain-link fence. For the current facility, Piedmont Natural Gas has proposed a brick enclosure to match the adjacent brick at the fire department and the adjacent shopping center. It will look completely different.

City of Winston-Salem There is a 30" water line and a 6" water line located in the corner of Robinhood and Meadowlark that runs parallel with Meadowlark. There is a 16" water line that runs parallel with Robinhood on the north side of the street. Please ensure proper clearances as to keep future maintenance easy for our crews. Is the proposed line going to be metal? If so we will need cathode protection around our existing water mains. Show existing water mains and easements on the plan.
